- (d) executing said reminder and playing said recording by means of said control module controlling a multimedia playing module.

44. (Currently Amended) A system for utilising utilizing a recording in a multimedia format as a reminder for a calendar application executed on a communication terminal, and comprising:

- (a) [[a]] said communication terminal comprising: (i) a control module for executing [[a]] said reminder comprising an executable program;
 - (ii) a multimedia generating module for generating a recording in [[a]] said multimedia format;
 - (iii) storage module for storing said reminder and for storing said recording in [[a]] said multimedia format; and
 - (iv) a multimedia playing module for playing said recording; and wherein said control module is adapted to associate said recording with said reminder and to control said multimedia playing module to play said recording in conjunction with said control module executing said reminder; and
